

Quality policy

To provide high-quality services, Gerwil Sliedredge works with a quality management system that meets the criteria of ISO 9001:2015.

The quality management system promotes the professionalism of the organization and ensures that Gerwil Sliedredge consistently provides its customers with a service that fulfils their need.

Gerwil Sliedredge also declares to comply with legal and other applicable requirements.

Continuous improvement is an essential part of our management system

Mission

Supply manpower to shipping and dredging industry, meeting or exceeding the customers' requirements.

We strive to understand customer requirements, even if not clearly stated by customer.

Vision

Control the process of recruitment and placement, know the requirements and eliminate the risks.

Our values

Our values indicate what the customer (and other stakeholders) can expect from us. It's those things we want to excel at. Our values are:

- Providing requested services on time
- Knowledge of legal requirements
- Be transparent about possibilities and costs
